

Ahmadshah Donishyar

Date of birth: 07/06/1998 | **Place of birth:** Herat, Afghanistan | **Phone number:** (+93) 0796206515 (Mobile) | **Email address:** ahmadshahdonishyar@gmail.com | **Website:** <https://scriptshah.vercel.app/> | **LinkedIn:** <https://www.linkedin.com/in/scriptshah/>

ABOUT ME

Frontend Developer with 4+ years of experience delivering responsive, high-performance web applications using React.js, Next.js, Vue.js, and modern UI frameworks. Skilled in Agile/Scrum, collaborating effectively with cross-functional teams to turn Figma designs into pixel-perfect, scalable interfaces. Experienced in modernizing legacy systems and implementing automation to streamline workflows. Proven track record in ERP systems, SaaS platforms, and client-focused websites, with a commitment to clean code, performance optimization, and exceptional user experiences.

WORK EXPERIENCE

CYBORG TECH – HERAT, AFGHANISTAN
FRONTEND DEVELOPER – 01/2025 – CURRENT

- **Adopted and integrated modern technologies** by transitioning from legacy HTML/CSS to **React.js** and **Next.js**, significantly improving development speed, scalability, and maintainability.
- **Collaborated** on multiple client-facing web projects, delivering responsive, high-performance front-end interfaces.
- **Translated creative, complex Figma UI designs** into reusable, maintainable components, ensuring consistency, performance, and pixel-perfect implementation.

ALKHARAZMI – HERAT, AFGHANISTAN
FRONTEND DEVELOPER – 08/2021 – 01/2025

- **Developed and delivered** 15+ dynamic web applications and websites using JavaScript frameworks, including **React.js**, **Vue.js**, and vanilla JavaScript.
- **Specialized** in **React.js** and **Quasar Framework**, consistently delivering high-quality, maintainable, and scalable solutions that met client and business needs.
- **Collaborated** in large, cross-functional teams to design, build, and enhance two enterprise-grade ERP systems, contributing to core architecture, performance optimization, and feature development.
- **Pioneered** the country's first **modern academic platform**, transforming academy operations through automation for departments, teachers, and students, including features for **automatic certificate** and **CV generation**.

PEAKSCALE – REMOTE, GERMANY
WEB DEVELOPER – 11/2023 – 03/2024

- Migrated legacy websites from static HTML/CSS to Webflow, leveraging its optimized CDN for faster load times, improved scalability, and easier content management.
- Redesigned and modernized the site into a fully functional, responsive experience, enhancing usability across all devices.
- Boosted SEO score from 57% to 90%, significantly increasing organic visibility.
- Improved accessibility score from 67% to 92%, meeting modern standards and enhancing usability for all audiences.

LANGUAGE SKILLS

Mother tongue(s): **PERSIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C1	C1	C1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

NEXT JS | React Js | TypeScript | JavaScript | Vue js | Quasar Vue | webflow | figma | PHP Framework Laravel | BootstrapCSS, TailwindCSS | Git & Githubs | Web services and RESTful APIs | shadcn/ui | Chakra UI | Agile methodologies (e.g., SAFe, Scrum) | SASS(SCSS) | CSS | HTML

PROJECTS

Rehash SaaS

Rehash App

SaaS platform for generating and managing QR codes with real-time asset tracking and location history. Developed a responsive, user-friendly interface with Chakra UI, integrating the QR Code Tiger API to generate dynamic QR codes from user input and display them seamlessly. Implemented efficient API handling and leveraged Firebase for secure data storage and retrieval.

Technologies: React.js, TypeScript, Tailwind CSS, Firebase, Chakra UI

Floos MSP Application

Floos MSP

Management service platform for streamlined resource, client, and workflow control with intuitive dashboards, real-time analytics, and automation tools.

Technologies: Quasar Framework (Vue.js), PHP Laravel

Link <https://floos.alkharazmi.com/>

Nanonet Academy Platform

Nanonet Academy Platform

A comprehensive academic management system developed with React, Inertia.js, Laravel PHP, and Tailwind CSS. Includes dedicated modules for instructors, departments, students, and alumni, enabling seamless administration and communication.

Personally developed the automated CV generation feature with three customizable CV templates and the certificate creation feature supporting custom certificate designs. Delivered through a clean, responsive interface that enhances engagement and modernizes the institution's digital infrastructure.

Technologies: React, Inertia.js, Laravel PHP, Tailwind CSS , jspdf

Link <https://nanonet.af/>

Solar-Destiny.de

Solar-Destiny.de Website Revamp

Modern, responsive Webflow rebuild improving SEO (57%→90%) and accessibility (67%→92%).

Technologies: Webflow

Link <https://www.solar-destiny.de/>

London Equipment Rentals (Canada) Website

London Equipment Rentals (Canada)

Responsive website showcasing construction equipment with easy navigation and booking.

Technologies: HTML, CSS, JavaScript

Link <https://ldnrental.com/>

Design3D-TShirt Customizer

Design3D-TShirt Customizer

Interactive 3D T-shirt design tool with real-time customization, graphics, and styling.

Technologies: React, React-three-fiber , threejs and Tailwindcss.
